14 Hp Vanguard Engine Manual

This is my first post so thanks in advance. I have a 23hp Vanguard (386777 0122-E1) that is leaking oil on to the right/ driverside valve cover. There is a black hose going from the motor to a black plastic housing above the cover. That has oil on as well. I read online that too much oil could cause this or a scorched piston. I tried to attach a photo but I'm having issues so if more ...

I have a B&S Engine (401417-0011-01-80052012) that is not currently running. I am trying to get it going. A little backstory is that this motor was on a 'kit' 3 wheeler type of ranch buggy from back in the 70's. It's a two seater with saddlebags and has the capacity to carry some small cargo that you might need on a ranch way before the days of UTV's.

The Standard Ten was a model name given to several small cars produced by the British Standard Motor Company between 1906 and 1961. The name was a reference to the car's fiscal horsepower. Like other manufacturers, Standard continued to use the name to define the approximate size of their 'Ten' model long after the origins of the name had, in Britain, become inapplicable.
