Researchers have described a new form of irritable bowel syndrome that occurs after an acute bout of diverticulitis, a finding that may help lead to better management of symptoms and relief for ...

### **New form of irritable bowel syndrome occurs after patients ...**

To summarize briefly, in septic shock renal blood flow is typically normal or increased, despite a reduction in glomerular filtration rate. This may be due to vasodilation of capillaries which bypass the glomerulus combined with vasodilation of efferent arterioles (allowing blood to shunt through the kidney without improving the glomerular filtration rate).

The Kuhn Cycle is a simple cycle of progress described by Thomas Kuhn in 1962 in his seminal work *The Structure of Scientific Revolutions*. In *Structure* Kuhn challenged the world's current conception of science, which was that it was a steady progression of the accumulation of new ideas. In a brilliant series of reviews of past major scientific advances, Kuhn showed this viewpoint was wrong.

Jessica Studdert, Deputy Director, NLGN, 25 February, 2019. A new approach to public services is gradually emerging on the front-line. Many innovations coming from local government, the health sector, education and social enterprises are flourishing independently of each other, but have at

their core one shared feature: handing power over to communities.

### **Six reasons our public services need a paradigm shift ...**

On abdominal ultrasonography, the finding of a hypoechoic and bulky pancreas is regarded as diagnostic of acute pancreatitis.. Treatment. Initial management of a patient with acute pancreatitis consists of supportive care with fluid resuscitation, pain control, nothing by mouth, and nutritional support.

A number of important diseases are transmitted between domesticated animals and thence to humans. Vaccination of domesticated animals has the potential to protect humans against these zoonoses, either indirectly by interrupting transmission where domesticated animals are amplifying hosts in the transmission cycle or directly by preventing spread from infected animals to humans.
