Many of the handouts will be in Portable Document Format (PDF). If you don't already have a viewer for PDF files, you can Download the Acrobat Reader. Lecture Notes. Note: Not all lectures will have handouts, this table only provides handouts that are available electronically.

ECE 526: Protection of Power Systems II, Spring 2019

Communications-based train control (CBTC) is a railway signaling system that makes use of the telecommunications between the train and track equipment for the traffic management and infrastructure control. By means of the CBTC systems, the exact position of a train is known more accurately than with the traditional signaling systems.

Communications-based train control - Wikipedia

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization and realize value.

ABB Group - Leading digital technologies for industry

Following the European Commission's recent rejection of the proposed Alstom-Siemens rail merger, France and Germany want to rewrite EU merger rules and give member states more say over proposed tie-ups. But although this approach may seem tempting, Europe would be wise to keep such decisions free from political influence.

Keep Politics Out of Europe's Competition Decisions | by ...

The considerations for a transformer protection vary with the application and importance of the power transformer. It is normal for a modern relay to provide all of the required protection functions

in a single package, in contrast to electromechanical types that would require several relays complete with interconnections and higher overall CT burdens.

Power transformer protection relaying (overcurrent ...
