In particular, law has been defined in moral terms (natural law theorists), defined by looking at its source (legal positivists), and defined in practical terms (legal realists). For purposes of studying business law, law can be defined as the body of rules that can be enforced by the courts or by other government agencies.

A legal doctrine is a framework, set of rules, procedural steps, or test, often established through precedent in the common law, through which judgments can be determined in a given legal case. A doctrine comes about when a judge makes a ruling where a process is outlined and applied, and allows for it to be equally applied to like cases.
