Interactive Data Visualization for the Web: An ...

Vega introduces a visualization grammar. A grammar is basically a set of rules that dictate how to use a language, so we can think of Vega as a tool that defines a set of rules of how to build and manipulate visual elements. As my experience with data visualization grows, I'm finding more and more that constraints are a good thing. By introducing a visualization grammar, Vega gives us some constraints to work with.

Interactive Data Visualization with Vega - Towards Data ...

Interactive Data Visualization has been evaluated by the American Council on Education (ACE) and is recommended for the upper-division baccalaureate degree category, 2 semester hours in computer science, computer information systems or information technology.
