Calendar of Events | American Museum of Natural History

A number of significant scientific events occurred in 2014, including the first robotic landing on a comet and the first complete stem-cell-assisted recovery from paraplegia. The year also saw a significant expansion in the worldwide use and sophistication of technologies such as unmanned aerial vehicles and wearable electronics.. The United Nations declared 2014 the International Year of ...

2014 in science - Wikipedia

Natural rubber, also called India rubber or caoutchouc, as initially produced, consists of polymers of the organic compound isoprene, with minor impurities of other organic compounds, plus water. Thailand and Indonesia are two of the leading rubber producers. Forms of polyisoprene that are used as natural rubbers are classified as elastomers.. Currently, rubber is harvested mainly in the form ...

Natural rubber - Wikipedia

Fugitive emissions from natural gas systems are the largest anthropogenic source of the greenhouse gas methane (CH₄) in the U.S. and contribute to the risk of explosions in urban environments. Here, we report on a survey of CH₄ emissions from 100 natural gas leaks in cast iron distribution mains in Metro Boston, MA. Direct measures of CH₄ flux from individual leaks ranged from 4.0 - 2.3 ...

Fugitive methane emissions from leak-prone natural gas ...

Syllabus, article and previous years or old question paper of 1, 2 and 3 of National Eligibility Test / State Eligibility Test / State Level Eligibility Test of University Grants Commission are available in this website. The sample of format given in this website by Badan Barman of LIS Links is useful resources for UGC JRF and NET preparation.

Most nations recently agreed to hold global average temperature rise to well below 2 °C. We examine how much climate mitigation nature can contribute to this goal with a comprehensive analysis of "natural climate solutions" (NCS): 20 conservation, restoration, and/or improved land management actions that increase carbon storage and/or avoid greenhouse gas emissions across global forests ...

NOTE: The following post has led to many good comments. The best argument advanced that I am wrong is from a ~1,000 year record of CO₂ from the Law Dome ice core (a record I was unaware of) which suggests the recent CO₂ increase is almost entirely anthropogenic in origin.. I frequently get asked the question, if natural CO₂ emissions are about 20 times what anthropogenic emissions are, how do ...

How Much of Atmospheric CO₂ Increase is Natural? « Roy ...

The Policy Dialogue on Natural Resource-based Development (PD-NR) is a multi-year inter-governmental process of knowledge sharing and peer-learning among oil, gas and mineral producing countries -OECD members and Partner countries alike- on how to best harness natural resources for structural transformation and more inclusive and broad-based development.
