Get accurate information to make faster decisions in one central location. OnBase provides a variety of integration methods to equip users with instant access to all information they need from their preferred application.. Leverage information from another application to automate processes in OnBase such as filling out forms, triggering business workflows or composing documents.

Integrate | OnBase Product Deep Dive

OnBase also integrates with Open Document Management API (ODMA)-compliant applications. Deeper and more complex application integration can be accomplished using the OnBase Application Programming Interface (API). With the API, integration is accomplished via Microsoft’s Component Object Model (COM) and .NET Interop or Java wrappers.

I recently worked on a project to ingest Outlook Emails into OnBase Document Management System. Now in the process of enhancing this project. When we receive an email, in the subject line, it contains numbers. I want to grab that numbers. So lets say if subject line contains, "My name is Hiren and my Driver license# 123456".
