Pastures Dynamics Economics And Management

You have read Valve's survival manual for new employees. You have read Michael Abrash's wonderful account of working at Valve. Now read my political economy analysis of Valve's management model; one in which there are no bosses, no delegation, no commands, no attempt by anyone to tell someone what to do.

Why Valve? Or, what do we need corporations for and how ...

Holistic management (from ὅλος holos, a Greek word meaning all, whole, entire, total) in agriculture is a systems thinking approach to managing resources that was originally developed by Allan Savory for reversing desertification. In 2010 the Africa Centre for Holistic Management in Zimbabwe, Operation Hope (a "proof of concept" project using holistic management) was named the winner of ...

The expansion of our wealth is only possible so long as the oil supply continues to expand, says oil expert Dr. Colin Campbell. The financial and investment community is beginning to accept the reality of Peak Oil, which ends the First Half of the Age of Oil, during which banks created capital by lending more than they had on deposit, being confident that tomorrow's expansion, fueled by cheap ...

Intensive farming involves various types of agriculture with higher levels of input and output per cubic unit of agricultural land area. It is characterized by a low fallow ratio, higher use of inputs such as capital and labour, and higher crop yields per cubic unit land area. This contrasts with traditional agriculture, in which the inputs per unit land are lower.

Despite much research on the role of vegetation in soil formation, a general understanding of the extent of the effect of tree species across site types has not yet been reached (Stone, 1975, Augusto et al., 2002, Binkley and Menyailo, 2005). Tree species affect the C storage of the ecosystem in several ways.

But sprouting carries plenty of costs, complications and labor. Whitesville, NY—For centuries farmers around the world have been sprouting grains and feeding the green material to their stock, usually with spotty success. The 1959 edition of Frank B. Morrison's venerable publication Feeds and Feeding referred to "clever promoters" making "extravagant claims" about the benefits of ...
