Geographical background. The mountainous Japanese archipelago stretches northeast to southwest 3,000 km off the east of the Asian continent at the convergence of four tectonic plates; it has about forty active volcanoes and experiences about 1,000 earthquakes a year. The steep, craggy mountains that cover two-thirds of its surface are prone to quick erosion from fast-flowing rivers and to ...

Emperors of the Sangoku,, the "Three Kingdoms," of India, China, & Japan. India and China are the sources of the greatest civilizations in Eastern and Southern Asia. Their rulers saw themselves as universal monarchs, thereby matching the pretensions of the Roman Emperors in the West. The only drawbacks to their historical priority were that India suffered a setback, when the Indus Valley ...
