

Theory Practice Group Psychotherapy Edition

Theory Practice Group Psychotherapy Edition

Group psychotherapy or group therapy is a form of psychotherapy in which one or more therapists treat a small group of clients together as a group. The term can legitimately refer to any form of psychotherapy when delivered in a group format, including cognitive behavioural therapy or interpersonal therapy, but it is usually applied to psychodynamic group therapy where the group context and ...

Classical Adlerian Theory and Practice

Overview. Edwin Nevis, co-founder of the Gestalt Institute of Cleveland, founder of the Gestalt International Study Center, and faculty member at the MIT Sloan School of Management, described Gestalt therapy as "a conceptual and methodological base from which helping professionals can craft their practice". In the same volume, Joel Latner stated that Gestalt therapy is built upon two central ...

Gestalt therapy - Wikipedia

In the first part of this series, I discussed Allan Schore's video about early neurological damage resulting from failures in the attachment relationship between mother and baby. In the second part, I used Schore's research to help explain why our defense mechanisms are so tenacious, and why authentic change is difficult and rare. I'd now like to conclude with my personal, somewhat ...

Attachment Theory and the Healing Psychotherapy Relationship

Helping relationships - principles, theory and practice. In this article we explore the nature of helping relationships - particularly as practised within the social professions and informal education.

As you can see from the comments to my last post about attachment theory and the origins of shame, many people are struggling with the idea of lasting neurological damage as the result of failures in early attachment. This is a difficult truth to accept, but we're talking about scientifically verifiable changes in the brain that result from different experiences during the first two years of ...

Motivation is the reason for people's actions, willingness and goals. Motivation is derived from the word motive in the English language which is defined as a need that requires satisfaction. These needs could also be wants or desires that are acquired through influence of culture, society, lifestyle, etc. or generally innate. Motivation is one's direction to behaviour, or what causes a person ...
