

Traditional Domestic Architecture Of The Arab Region

Traditional Domestic Architecture Of The

Vernacular architecture encompasses the vast majority of the world's built environment, and thus resists a simple definition. It is perhaps best understood not by what it is, but what it can reveal about the culture of a people or place at any given time.

Chinese architecture demonstrates an architectural style that developed over millennia in China, before spreading out to influence architecture all throughout East Asia. Since the solidification of the style in the early imperial period, the structural principles of Chinese architecture have remained largely unchanged, the main changes being only the decorative details.

Identification. The name of the country is derived from the legendary ancestor Yaman, the son of Qahtan, or from the Arabic root ymn ("the right") since Yemen is located to the right of the Meccan sanctuary of Kaaba. Some scholars compare the Arabic word yumna ("happy") with the Roman name for the southwest Arabia, Arabia Felix ("Happy Arabia").

JSTOR: Viewing Subject: Architecture & Architectural History

PERIOD OF POPULARITY: 1980s - current BACKGROUND AND INSPIRATION: Is postmodern a "style"? The postmodern era is most associated with architecture appearing since the late 1970s, continuing through today. Often postmodern architecture is referred to as neo-eclectic, essentially representing a loosely interpreted revival of historical styles mixed with modern construction techniques for newer ...

Cloister, quadrilateral enclosure surrounded by covered walkways, and usually attached to a monastic or cathedral church and sometimes to a college. The term used in a narrow sense also applies to the walkways or alleys themselves (the central area being the cloister garth), in a general

sense to the houses of religious orders, and in a generic sense to places of retreat for religious purposes.
