Human milk that has truly soured has a very distinct sour taste and odor - much like soured cow's milk. If your milk doesn't smell distinctly sour or rancid, then it should be safe to give to your baby. If you repeatedly notice that your stored milk doesn't smell or taste fresh, it might help to go through your storage procedures to see if there is something you could do to improve the smell ...

Back in 1957, Theodor Geisel responded to an article in Life magazine that lamented the use of boring reading primers in schools. Using the pseudonym of "Dr. Seuss" (Seuss was Geisel's middle name) and only two hundred twenty-three words, Geisel created a replacement for those dull primers: "The Cat in the Hat."
