Today, Python has become a popular high-level programming language for general-purpose programming. It is easy to learn and it has clean syntax and indentation structure essentially making it easier for programmers with backgrounds in other languages to grasp Python pretty quickly, and beginners find it really simple.

Decibel Dungeon. Introduction: You can't have failed to have noticed the increasing number of hi-fi products related to computer-audio. Using a computer to store the music (in digital format) with an interface component, to act as a music source, instead of a CD player, turntable, tuner etc. is becoming ever more popular with audiophiles everywhere.

### **Computer-based Audio using streaming devices, and USB DAC's.**

Network Time Protocol - NTP- is a protocol which runs over port 123 UDP at Transport Layer and allows computers to synchronize time over networks for an accurate time. While time is passing by, computers internal clocks tend to drift which can lead to inconsistent time issues, especially on servers and clients logs files or if you want to replicate servers resources or databases.

### **Setting Up "NTP (Network Time Protocol) Server" in RHEL ...**

Computer programming languages allow us to give instructions to a computer in a language the computer understands. Just as many human-based languages exist, there are an array of computer programming languages that programmers can use to communicate with a computer.
